

Chapter 9 – Tax Type Registration

9.1 Introduction

Obtaining a **Taxpayer Identification Number (TIN)** is the first step in becoming a registered taxpayer. However, possessing a TIN alone does not automatically register a taxpayer for every tax administered by the Inland Revenue Department (IRD).

After obtaining a TIN, taxpayers must register for the specific **tax types** that apply to their income, business activities, or legal obligations. Tax type registration can be completed through the **IRD e-Services Portal** or by visiting the **Tax Registration Unit** at the IRD Head Office or any Regional Office.

9.2 What is Tax Type Registration?

Tax Type Registration is the process of registering an existing taxpayer for one or more taxes administered by the Inland Revenue Department.

A taxpayer registers only for the tax types applicable to their circumstances. Registration enables the taxpayer to meet legal obligations such as filing returns, making tax payments, and complying with tax laws.

9.3 Who Should Register for Tax Types?

Taxpayers should register for tax types based on their legal obligations.

Examples include:

Tax Type	Who Should Register
Income Tax	Persons liable to submit income tax returns.
Value Added Tax (VAT)	Businesses whose taxable supplies exceed the

	registration threshold or those registering voluntarily.
Withholding Tax (WHT)	Persons or entities required to deduct or account for withholding tax.
Other Tax Types	Taxpayers who become liable under the relevant tax laws.

9.4 Available Methods of Registration

Tax type registration can be completed in two ways.

Online Registration

Using the IRD e-Services Portal.

Manual Registration

By visiting:

- Tax Registration Unit
- IRD Head Office
- Any Regional Inland Revenue Office

Applicants who submit manual applications should complete the prescribed application forms and provide the required supporting documents.

9.5 Registering Through the IRD e-Services Portal

The online registration process generally includes:

1. Log in to the IRD e-Services Portal.
2. Select **Taxpayer Registration**.
3. Choose **Tax Type Request**.
4. View currently registered tax types.
5. Select the new tax type.

6. Enter the required information.
 7. Upload supporting documents (if required).
 8. Review the application.
 9. Submit the request.
 10. Save the acknowledgement for future reference.
-

9.6 Information Required During Registration

Depending on the selected tax type, taxpayers may need to provide additional information.

Examples include:

Income Tax

- Business address (where applicable)
- Relevant taxpayer information

VAT

- Business activities
- Business address
- VAT registration category
- Turnover information
- Supporting documents

Withholding Tax (WHT)

- Applicable withholding category

Additional information may be requested depending on the selected tax type.

9.7 Supporting Documents

The supporting documents required depend on the tax type being registered.

For most tax types, registration may not require additional supporting documents beyond the application.

However, **VAT registration** generally requires documentary evidence supporting taxable

business activities. Examples include:

- Sales invoices
- Purchase orders
- Sales agreements
- Bank statements
- Rent agreements
- Airway bills
- Bills of lading
- Commercial invoices
- Registration certificates issued by relevant authorities (where applicable)

Applicants registering voluntarily for VAT should indicate the purpose of registration.

9.8 Corporate Income Tax (CIT)

Companies registered with the Inland Revenue Department are **automatically registered for Corporate Income Tax (CIT)** after obtaining a TIN.

Therefore, companies are **not required to submit a separate application** for Corporate Income Tax registration.

9.9 Temporary VAT Registration

Temporary VAT registration is available for taxpayers involved in:

- Imports
- Exports
- Re-export activities

This registration is intended for persons who have not obtained permanent VAT registration but require VAT registration for customs-related activities.

Supporting documents may include:

- Bill of Lading
- Airway Bill
- Purchase Orders
- Purchase Agreements

Applications may be submitted online or through the Tax Registration Unit.

9.10 Simplified VAT Scheme (SVAT)

The Simplified Value Added Tax (SVAT) Scheme is available for certain taxpayers who are already registered for VAT.

Categories include:

- Registered Identified Suppliers (RIS)
- Registered Identified Purchasers (RIP)
- Specified Projects
- Strategic Development Projects
- Zero-rated suppliers
- Deemed exporters

SVAT registration requires additional documentation and is processed separately by the Inland Revenue Department.

9.11 Declaration and Submission

Before submitting a tax type registration request, taxpayers should:

- Review all entered information.
- Verify the accuracy of supporting documents.
- Complete the declaration.
- Provide the required contact information (where applicable).
- Submit the application.

After submission, the system generates an acknowledgement, which should be retained for future reference.

9.12 Processing of Applications

After submission:

1. The Inland Revenue Department reviews the application.
2. Supporting documents are verified.
3. Additional information may be requested if necessary.
4. Once approved, the requested tax type is activated in the taxpayer's profile.

Taxpayers should ensure that their registration details, including email address and mobile number, are up to date before applying for tax type registration.

9.13 Common Reasons for Registration Delays

Applications may be delayed due to:

- Incomplete application forms.
- Missing supporting documents.
- Incorrect taxpayer information.
- Unclear uploaded documents.
- Outdated contact information.
- Failure to provide mandatory declarations.

Providing complete and accurate information helps reduce processing delays.

9.14 Best Practices

Taxpayers should:

- Register only for tax types applicable to their activities.
 - Keep taxpayer registration information current before applying.
 - Upload clear supporting documents where required.
 - Save the acknowledgement after submission.
 - Retain copies of all supporting documents and correspondence.
-

9.15 Key Points

- **A TIN alone does not register a taxpayer for every tax type.**
- Taxpayers must register separately for the taxes that apply to them.
- Registration can be completed online through the IRD e-Services Portal or in person at an

IRD office.

- Companies are automatically registered for **Corporate Income Tax (CIT)** after obtaining a TIN.
- VAT registration generally requires additional supporting documents.
- Successful applications result in the activation of the relevant tax type in the taxpayer's IRD profile.
